TRANSNET

Mission Statement

To help relieve traffic congestion, increase safety, and improve air quality by providing essential Citywide transportation improvements, which include performing repairs, restoring existing roadways and constructing needed facilities within the public rights-of-way.

Department Description

On November 7, 1987, voters in the County of San Diego approved the San Diego Transportation Improvement Program (TransNet), which allowed for a one-half cent increase in the local sales tax. The current TransNet Program will expire in 2008. The City of San Diego's share of TransNet revenue is based on population and the number of local street and road miles maintained. The funds generated help relieve traffic congestion, increase safety, and improve air quality by providing essential Citywide transportation improvements such as the repair and restoration of existing roadways and construction of needed facilities within the public rights-of-way. Through a cooperative effort with the San Diego Association of Governments, the City of San Diego is able to manage the fund so that the most pressing transportation problems are addressed. In November 2004, San Diego County voters approved a 40-year extension of the existing ½ cent sales tax for transportation improvements for the entire region. These additional monies will be used for highway, transit, and local road improvements throughout the region.

The City Auditor and Comptroller's Office, Financial Management Department, Equal Opportunity Contracting Program and Engineering and Capital Projects Department are reimbursed for administrative oversight of the Fund; Neighborhood Code Compliance receives TransNet revenue to perform graffiti control activities; Engineering and Capital Projects provides transportation and drainage design, earthquake restrainers for bridges, and is reimbursed for traffic engineering. The Planning Department provides plans; Development Services receives TransNet revenue for traffic studies and new developments; and the General Services Department is reimbursed for street maintenance services.
